बाकी इतिहास | BAAKI ITIHAAS

| Synopsis |

Baaki Itihaas transcends the boundaries of conventional theatre, emerging as a profound reflection on human existence, memory, guilt, and the enduring search for life's meaning. Through an intimate portrayal of an ordinary middle-class family, the play delves into the emotional and psychological complexities that define modern existence. Beneath the façade of everyday life lie unfulfilled aspirations, silent disappointments, moral dilemmas, and unresolved conflicts. An unexpected event shatters this fragile normalcy, compelling the characters to confront their past, reassess their relationships, and question the very purpose of their lives.

Penned by Badal Sircar, one of India's most influential modern playwrights, the play challenges the conventional understanding of history. It asks whether history belongs only to kings, wars, and celebrated achievements, or whether every ordinary individual also carries a history that remains unwritten. Hidden beneath the routines of daily existence are countless untold stories of sacrifice, remorse, love, fear, and longing—stories that never find a place in official records, yet shape the very essence of a person's life. This unwritten narrative is the **"remaining history"** that the play seeks to uncover.

Baaki Itihaas presents a poignant commentary on the anxieties of the middle class, the alienation of modern society, existential uncertainty, and the emotional isolation that often accompanies contemporary life. Rather than offering definitive answers, it invites its audience to embark on an inward journey, encouraging them to reflect upon the forgotten chapters of their own lives - the dreams abandoned, the choices regretted, and the emotions left unspoken.

More than a theatrical performance, **Baaki Itihaas** is an introspective experience that reminds us that the most significant history is rarely the one preserved in books, but the one silently carried within every human heart. Its greatest strength lies not in the answers it provides, but in the questions it leaves behind - questions that continue to resonate long after the curtain falls.

"History is not only what is written in books; it is also what every individual silently carries within, yet never finds the words to tell."

बाकी इतिहास | BAAKI ITIHAAS

| Director's Note |

"History is not merely what is recorded; it is equally what is remembered, forgotten, and silently carried within us."

Every human being carries a history that remains untold - a collection of forgotten dreams, unspoken regrets, unresolved questions, and silent battles that rarely find a place in the pages of history. It is this invisible narrative that drew me to Baaki Itihaas.

Badal Sircar's writing possesses a rare ability to transform the ordinary into the extraordinary. Through seemingly familiar lives, he reveals the profound anxieties that define modern existence, the burden of memory, the weight of guilt, the loneliness of the individual, and the relentless search for meaning. His characters are not heroes or villains; they are reflections of ourselves, navigating the fragile balance between what we have lived, what we have lost, and what we continue to carry within.

Our interpretation of *Baaki Itihaas* does not seek to provide answers. Instead, it invites the audience into a shared space of introspection. Every pause, every silence, and every fragmented memory on stage has been approached not as a dramatic device, but as an invitation to look inward. The play reminds us that while history celebrates extraordinary events, it often overlooks the quiet struggles of ordinary lives—the very struggles that shape who we become.

Theatre, at its finest, is not about offering certainty; it is about asking questions that continue to echo long after the performance has ended. As the curtain falls, I hope this production encourages you to reflect upon your own "remaining history"—the moments you cherish, the choices you question, the memories you protect, and the stories that have shaped you but have never been spoken aloud.

If this performance inspires even one person to pause, reflect, and rediscover a forgotten part of themselves, then our journey to bring *Baaki Itihaas* to the stage will have found its true purpose.
